Scott's Talks

Looking for Laughter in All the Wrong Places -

helps audiences see the potential in everyday, build positive attitude and inner strength through any situation.

The Three Steps to Survivorship -

We are all survivors. This program uses simple tools we all have to face the challenges of everyday.

Comedy/Juggling Show -

When what you need is quality entertainment.

Scott presents an upbeat, empowering and inspiring program on finding value and passion in life and on the job. Scott is a headlining comic and best selling author who has worked with Seinfeld and Leno, written for prime-time television and is a World-champion juggler. At the age of 30 he was diagnosed with a high grade osteosarcoma (cancer). What Scott found in the battle was not loss, but LIFE! He turned his fears into strength, his tragedy to comedy. This is not a talk about cancer. It is about potential. Scott's high-energy and very entertaining program goes beyond the fear of cancer or struggle in life and calls for joy, laughter and expression of self everyday. A needful message with great entertainment, or incredible entertainment with a potent message. Either way, Scott's show leaves a memorable impression.

"Being afraid of life is the real disease..."

Scott's talk doesn't come across as a canned, motivational speech - because it's not. It is a story about finding perspective, finding hope, finding laughter and finding ourselves.

In telling his story of cancer survivorship and finding Life, Scott's audiences don't cry. They laugh like they never thought they would.

Scott is Energetic, Genuine, Inspirational, Profound and, as all his clients agree -

Very Funny!

*How do
YOU
energize your
audience?*

"Without hesitation, I would most certainly regard your performance as one of the best that any of us have ever witnessed, not only for the quality of the comedy and your physical skills, but inspirational component which uplifted us all."

Thomas Eanelli, M.D.
Horton Radiation
Middletown, NY

"One woman had just come from hearing that her cancer had metastasized. She said that her angel must have led her here because she laughed so much that she could forget for a while that she had cancer."

Kathleen Hardy CSW,
Program Director
Gilda's Club, Detroit
